

Piedmont Construction & Design Symposium

“Driving Forces in the New Regional Economy”

- Preview the future of the Piedmont design and construction industry and explore regional economic drivers: biotechnology, biopharmaceuticals, higher education, transportation, and healthcare, as regional leaders discuss future construction and development across the Triad.
- Join industry leaders, legal experts, and government representatives in a discussion of new federal and state statutory requirements and their intended and unintended impacts on North Carolina's design and construction industry.
- Solutions to Key Issues facing HUB Contractors

(Networking Luncheon in the Anderson Center with guest speaker)
