

PHOTO: NC AGRICULTURAL SCIENCES CTR, RALEIGH, NC (CURRENTLY UNDER CONSTRUCTION)

ROBERT MARSHALL

SENIOR PROJECT MANAGER

Robert's responsibilities begin in preconstruction, where he will lead our collaborative efforts with the owner, architect, and key prime trade partners. He has an understanding of the local market and will conduct value engineering and constructability reviews, as well as develop the project's strategic plan with team members. During construction, he is accountable for the project's overall schedule and budget and will manage the progress of work and authorize resources as necessary to keep the project commitments.
